

BBP-1.0 [Bloodborne Pathogens](#)

Series/Catalog: General Industry Series

Linear Duration/min: 00:30:00 Origin Date: 01/01/2009
Interactivity: Level II Last Update: 01/01/2009
Supervising SME: Laura Belden

Course Description: Upon completion of this learning event, the learner will demonstrate knowledge of the hazards of bloodborne pathogens in the workplace. Employees will learn how to identify major bloodborne diseases and symptoms, how pathogens are transmitted, the basics of exposure prevention and incident response and cleanup. This course is intended to assist the employer in meeting the requirements of OSHA standard 29 CFR 1910.1030. In addition to this course, the employer may want to consider providing the [Basic First Aid course](#) and [CPR Refresher course](#).

Relevant Standards: OSHA 29 CFR 1910.1030

Complexity/Difficulty: Level I (very easy)

Target Audience: This awareness-level course is intended for general-industry and medical field employees who, during the course of their routine work activities, may come in contact with blood or other substances carrying bloodborne pathogens.

Prerequisites: None

Competencies

Competency Statement: To successfully complete this course, the Learner will demonstrate the ability to:
