

HZC-1.0 **Hazard Communication**

Series/Catalog: General Industry Series

Linear Duration/min: 00:29:00 Origin Date: 01/08
Interactivity: Level II Last Update: 09/08
Supervising SME: Laura Belden

Course Description: Hazard Communication is an OSHA standard that requires employers to create a program addressing chemical hazards in the workplace. Upon completion of this learning event, employees will demonstrate knowledge of Hazard Communication programs. Employees will learn about the hazards of potential chemical exposure, types of hazards, Material Safety Data Sheets, chemical detection methods and how chemical hazards are controlled.

Relevant Standards:

Complexity/Difficulty: Level I (very easy)

Target Audience: This course is intended for all employees who work in a facility in which hazardous chemicals are regularly used or stored.

Prerequisites: None

Competencies
