

JSA-1.0 **Basic Job Hazard Analysis**

Series/Catalog: General Industry Series

Linear Duration/min: 00:17:00 Origin Date: 01/08
Interactivity: Level II Last Update: 09/08
Supervising SME: Trent McElroy

Course Description: Upon completion of this learning event, the learner will demonstrate knowledge of the basic concepts and procedures of a job hazard analysis. Employees will learn about the need for effective job hazard analysis, how to prepare for one, the process of identifying workplace hazards, and how to correct them. The employer may also be interested in the Performing Safety Audits, and [Incident Investigation](#) courses.

Relevant Standards: OSHA General Duty Clause Section 5(a)(1)

Complexity/Difficulty: Level I (very easy)

Target Audience: This course is intended for general-industry employees and safety officers who are interested in improving the safety of work practices either in their own work processes or in their companies.

Prerequisites: None

Competencies
