OGS-1.0 **Hydrogen Sulfide Safety for the Oil and Gas Industry**

Series/Catalog: General Industry Series

Linear Duration/min: 00:19:00
Interactivity: Level II

Origin Date: 01/08
Last Update: 09/08
Supervising SME: Laura Belden

Course Description: Hydrogen sulfide gas is a common hazard in the oil and gas industry. Upon completion of this learning event, employees will demonstrate knowledge of the sources of hydrogen sulfide, its physical and chemical properties and effects on the body, hydrogen sulfide exposure controls and exposure response.

Relevant Standards:

Complexity/Difficulty: Level I (very easy)

Target Audience: This course is intended for oil and gas industry employees who, during their regular work duties, may come in contact with hydrogen sulfide gas.

Prerequisites: None

Competencies

Competency Statement
To successfully complete this course, the Learner will demonstrate the ability to:

OGS-1.1.0	Introduction and objectives	0:01:17
OGS-1.2.0	Recognize the physical and chemical properties of hydrogen sulfide	0:01:53
OGS-1.3.0	Recognize the effects of hydrogen sulfide on the body	0:01:57
OGS-1.4.0	Recognize information about hydrogen sulfide monitoring equipment	0:01:43
OGS-1.5.0	Identify basic hydrogen sulfide exposure controls	0:04:55
OGS-1.6.0	Identify proper hydrogen sulfide exposure response	0:01:07
